And so on... until the story is complete

EXAMPLE

The stakes are high in Ms. Chin's Law 12 class as the students run a simulated case in front of Judge Chin.

According to Matthias_Cipriano, representing the crown, the case involved "an alleged impaired driving case, where a driver crashed into a telephone pole."

Deena Lakher, the defense lawyer, "there was a bunch of other factors like the driver was a staff sergeant on the police force, and an investigative reporter who might have had bios against the sergeant and witnessed the crash." Both of these students really enjoyed the experience. Matthias says of law class "it's really though provoking, discussing what is on the news in a very open way." Deena goes on to say "Ms. Chin treats us as mature adults." Both Deena and Matthias are planning on pursuing law after high school and are very thankful for their experience in Ms. Chin's law class.
