

# PHOTOGRAPHY 10

## Who Are You?

### Overview

Images can be used to show many things - emotion, beauty, reality, nature, relationships, fantasy, and personality. You will be gathering 9 images that capture your personality; these 9 images will be put together in a 3X3 grid.

The centre image will be a picture of you - it should represent how you see yourself - not just a snapshot. The other 8 images will represent different parts of your personality and your life.

You might include pictures of:

- Your family
- Friends
- Your room
- Sports
- Hobbies
- Religion
- Your home
- Future Goals
- Talents
- Dreams
- Favourite things to do

Use at least one of the Elements and Principles of Design to make each image more interesting.

Elements of Design - Colour, Form, Line, Texture, Shape, Value

Principles of Design - Balance, Contrast, Perspective, Proportion, Repetition, Unity

### Steps

- Brainstorm all of the possible things you could take pictures of
- Choose 8 of them
- Plan the photo of you that will go in the middle. Where will you take it? What will you wear? How much will you zoom in? What expression will you have?
- Plan the 3X3 grid on a piece of paper. Which Element or Principle of Design will you use for each photo to make it more interesting? Write this down on the grid.
- Show me your grid and get my approval to start taking your pictures
- Take pictures, sort, and edit
- Learn how to put the pictures together in a grid
- Frame, Save as JPG and hand in

### Criteria (20 marks)

The Provincial Proficiency Scale	EMERGING	DEVELOPING	PROFICIENT	EXTENDING
	The student demonstrates an initial understanding of the concepts and competencies relevant to the expected learning.	The student demonstrates a partial understanding of the concepts and competencies relevant to the expected learning.	The student demonstrates a complete understanding of the concepts and competencies relevant to the expected learning.	The student demonstrates a sophisticated understanding of the concepts and competencies relevant to the expected learning.

**1. Correct Content/Composition - 4 marks**

Do your images give the viewer a sense of who you are and what's important to you? Have you successfully incorporated the Elements and Principles of Design?

**2. Skills / Technical – 4 marks**

Pictures have the correct white balance, are in focus, proper exposure. The Photoshop grid is organized and interesting.

**3. Wow! Factor - 4 marks**

Does each image stand on its own as something interesting? Are your images in focus and properly exposed? Have you created something both beautiful and interesting? Did you put in a lot of thought and effort?

**4. Professionalism - 4 marks**

Professionalism is based on the attention paid to the accurate and careful presentation of the final project. Marks will be deducted from your skills/technical if your work is not submitted by the due date.

- 1 electronically submitted photograph
- 2 paragraph journal entry in Google Docs - What did you learn? What was challenging? How do you feel about your final product? What does each image represent to you? Why did you choose these images?
- Name your folder: Who Are You-YourName
- Name your final grid in the following way:
- username\_me.jpg

**5. Journal Entry - 4 marks**

Write a two-paragraph entry. Describe each of your 8 photos. What Elements and Principles of Design did you use? What did you find challenging about this assignment? What did you learn?
